Sector Specific Use-Cases

Logistics & Transportation

- Delivery tracking
- Fuel & route optimization
- Driver scorecards
- Compliance with RTMS

Municipal Fleets

- Unauthorised trip tracking
- Water tankers, waste trucks, EMS PFMA/MFMA
- Friendly reporting
- Service delivery optimisation

Mining & Industrial

- Rugged devices for harsh environments
- Geo-fenced safety zones
- Idle/engine monitoring

Government Departments

- Secure oversight
- Anti-theft protection
- Auditable logs

SME/Business Fleets

- Track sales vehicles
- Schedule visits
- Improve accountability

Pricing Structures

Business Basic

From R239 - R389 / month per vehicle
5 features from the list below

- Live Tracking
- Tow Alert Driver
- Behavior Driver
- Scoring Speed Alerts
- User Role Management
- Maintenance & Licenses Disc Schedules
- Expense Management
- Odometer Reading
- Audit Reports
- SARS Logbook Early Warning Alerts
- Geo-Fencing & Points of Interest
- Checklist
- Vehicle Inspection Project
- Management Dashboard

Business Standard

From R499 - R699 / month per vehicle
12 options features

Best Seller

Up to 12 feature selections from the
Basic list

- Priority support
- Advanced reporting templates
- Department / multi-fleet user roles
- Extended data retention
- Executive dashboard pack

Optional Upgrade Extras

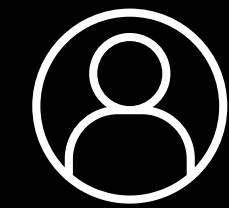

Extra Feature Options to add
at additional cost

- BLE Tag Integration
- Immobilization
- RFID Reader
- RFID Driver Tag
- Speed-Limit Buzzer / Over-speed Alert
- Additional User Role Management
- Customized Audit Reports
- CAN Data (Fuel, RPM, DTCs, Odometer, Engine Health)
- Camera Integration

Ideal for SMEs, logistics, municipal departments, security fleets, and service vehicles. also prices may vary depending the device chosen. T & C may apply.

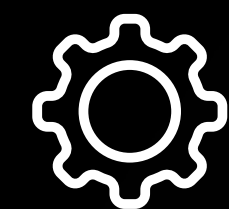

ecotrack

We are the best!

User-friendly Dashboard interfaces

With the dashboard so easy to learn and understand you will feel like we are wasting your time by training you.

Seamless integration and Installations

We onboard without interruption of your daily processes we work around your schedule to intergrade seamless solutions

Secure & safe

We make sure you never get to worry about anything beyond the point of intergrations as our devices are safe and we bring warranty to back it up.
